

COVID-19

Equality Impact Assessment

To fulfil the public body 'Equality Duty' to have 'due regard' to equality considerations under the Equalities Act 2010, an organisation must, whenever significant decisions are being made or policies developed, give thought to equality implications for people with particular protected characteristics.

These equality impact assessments have been completed by New Collaborative Learning Trust (NCLT) to evidence how we have given due regard to the needs of students and staff, with increased vulnerability to infection or poorer outcomes from COVID-19, when making decisions regarding the re-opening of colleges during the COVID-19 pandemic.

Updated March 2021

COVID-19: Equality Impact Assessment - Students

Policy or Decision:	COVID-19: Trust re-opening Individuals with increased vulnerability to infection or poorer outcomes from COVID-19
Trust name:	New Collaborative Learning Trust
Covered by this assessment:	Students

Assessment conducted by – name:	Lauren Walker
Assessment conducted by – job title:	Trust Director of HR
Assessment date:	1/3/2021

Considerations regarding groups that may be affected:

Groups with protected characteristics	It is assessed that this decision could have a:			Impact comments:	Reasonable Adjustments Identified:	Negative Impact: <i>Please provide details as to why reasonable adjustments are not being made</i>
	Positive Impact	Neutral Impact	Negative Impact			
Age (Adults only)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	No evidence of impact.	a. Not required.	Not Applicable.
Disability	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<p>a. High Risk - 'Clinically Extremely Vulnerable': Identified specific medical conditions have been identified as placing someone at greatest risk of severe illness from coronavirus.</p> <p>b. Moderate Risk - 'Clinically Vulnerable': Identified health conditions have been identified as placing someone at higher risk of severe illness from coronavirus.</p> <p>c. Other - Do not fall into one of the above categories, however, have received medical advice to remain at home.</p> <p>d. Disability which is the subject of reasonable adjustments.</p>	<p>a. Government advice is that students within this category should remain at home and engage with remote learning.</p> <p>b. Government advice is that students within this category can return to college/school as long as the recommended systems of control are in place and followed.</p> <p>c. Students within this category will provide a letter from their GP confirming advice. If it is possible to attend college/school these students will have a risk assessment undertaken if required.</p> <p>d. These students will have an individual risk assessment undertaken.</p>	Not Applicable – all reasonable adjustments will be made.
Gender reassignment	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	No evidence of impact.	Not required.	Not required.
Pregnancy and maternity	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Moderate Risk - 'Clinically Vulnerable' - Pregnancy.	Government advice is that students within this category can return to college/school where supported by a risk assessment and as long as the recommended systems of control are in place and followed. If a risk	Not Applicable – all reasonable adjustments will be made.

Groups with protected characteristics	It is assessed that this decision could have a:			Impact comments:	Reasonable Adjustments Identified:	Negative Impact: <i>Please provide details as to why reasonable adjustments are not being made</i>
	Positive Impact	Neutral Impact	Negative Impact			
					<p>assessment does not support a return, then they should study at home.</p> <p><i>General guidance is that those under 28 weeks pregnant with no underlying health conditions can return. Those under 28 weeks with an underlying health condition should remain at home. All those over 28 weeks pregnant (whether an underlying health condition or not) should remain at home.</i></p>	
Race	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Current evidence that ethnicity of a BAME background may be associated with increased vulnerability.	An individual risk assessment will be completed if required.	Not Applicable – all reasonable adjustments will be made.
Religion or belief	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	No evidence of impact	Not required.	Not required.
Sex	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	There is some evidence of males being at higher risk of being admitted to hospital, which increases if other risk factors are also present (eg, other health concerns, age)	A Covid-19 Risk Assessment has been completed for all students. We will ensure if necessary that a risk assessment is completed based on cumulative risk.	Not Applicable – all reasonable and realistic adjustments will be made.
Sexual orientation	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	No evidence of impact	Not required.	Not required.
